

At St Mary Magdalen’s RC Primary School, we believe that a high quality and enjoyable physical education programme is a vital part of the children’s development. We aim to develop each child’s physical confidence and skills enabling them to lead healthy lifestyles. Through our curriculum we offer the children opportunities to compete both against themselves and others, in order to build self- confidence, resilience and a sense of fair-play. The curriculum is designed to enable all children to participate including those who are more-able, as well as those with additional needs. The P.E. and Sports Premium has been used and will continue to be used to promote and develop these aims, as well as support teaching staff in their continuous professional development.

This financial year 2017-18 St Mary Magdalen’s RC Primary School has been allocated £18 100 Using the premium, detailed above, the following provision for children and continuous professional development for teaching staff has been actioned. This will aid provision and CPD.

How have we spent the money?

During the academic year 2017-18 the sports premium grant has been used to fulfil the following:

- To improve the quality and breadth of P.E & Sport provision, and increasing participation in PE & Sport by investing in the Easington School Sport Partnership Service Level Agreement.
To provide high quality coaching support across a variety of sports.
To encourage more participation, inclusion and excellence opportunities.
To provide curriculum support and high quality CPD for teachers.
To participate in a programme of competitions, tournaments and festivals.
To encourage less active children to become more engaged through a Change 4 Life Club.
To continue to provide after-school activities each term in a variety of sports.
To improve the quality of equipment for P.E and sport within school.
To provide transition opportunities for Year 5.
The 2017-2018 cohort of Year 3 attended swimming lessons for a year. Here, they developed their water confidence as well as improving their competence in learning different strokes. Additional provision was made for other children in Key stage 2 for one term who had not yet achieved 25m. At the end of the swimming lessons, 100% of the children were able to swim the expected 25 metres unaided.
