Dear Parents/Carers,

RE: 21 Random Acts of Kindness – Forever Angels Charity

In these challenging times we thought it might be lovely and cheering to look at the positives that people often do in their everyday lives that help spread love and kindness.

Forever Angels, a charity with which our school has links with and one which I have regular contact with, is carrying out a campaign called '**21 Random Acts of Kindness**'. They have asked our school to participate in this campaign and, therefore, we will be promoting kindness in school and at home during the month of February. It is hoped that this will also help to promote our pupils well-being as it will focus their attention on the many positives they can do for themselves and for others.

The aim is that each time your child completes an 'Act of Kindness' for someone, or they receive an act of kindness themselves, they write this on their '21 Random Acts of Kindness' grid that is attached to this letter. By sharing our kind actions, we can all encourage kindness and love in others and hopefully put a smile on everyone's face. If you are currently learning from home, please send us any acts of kindness carried out throughout the month of February and we will try our very best to share these via our school Twitter site. Don't forget, in these strange times it is important to be kind to yourself too!

Further information about the Forever Angels Charity and resources relating to February's activities can be found on our school website.

Thank you for helping us spread a little love and kindness.

Yours Sincerely,

Mrs. A. Sharp (Spiritual School Lead)
